FINANCE DEPARTMENT.

Issue of one-rupee notes

Fort St. George, July 24, 1940 [G.O. No. 186, Finance (Ways and Means)].

No. 69.

The following Press Communiqué of the Government of India is republished :—

FINANCE DEPARTMENT.

Simla, the 24th July 1940.

As a result of large withdrawals of rupee coin from circulation in recent months for hoarding, much inconvenience is being felt by the general public owing to the scarcity of a suitable medium of exchange of smaller value than the Reserve Bank note of lowest denomination, namely, rupees five. Requests have been pouring in from all parts of the country to issue notes of smaller denomination, as was done in the last war, and it has

been decided to supplement the stock of rupee coin by one-rupee notes issued on the authority of the Government of India, and an Ordinance has just been issued authorizing such issue and providing that such notes will for all purposes be the equivalent of rupee coin. They will be legal tender to exactly the same extent as rupee coin and, not being bank notes or currency notes, can be issued by the Reserve Bank of India in exchange for their bank notes to satisfy a demand for rupee coin.

2. The silver stocks of the Government of India, apart from the coin held by the Reserve Bank of India, are ample. Of these, however, a large amount consists of the proceeds of Queen Victoria coin which has been withdrawn from circulation in the last few years and which would, in the opinion of Government, have to be recoined before being fit for issue. In view of the expansion of war activities, however, there has been an exceptionally large demand for small coin which shows no signs of abatement, and Government consider that priority should be given to supplying such coin which are a necessity to the poorer classes for their day to day transactions and which are not used for hoarding in preference to coining rupees merely to satisfy the selfish instincts of the wealthier hoarder. While every effort is being made by Government to re-mint as quickly as possible rupee coins from the bullion in their possession, the output of the mints is for this reason at present limited and it is necessary to introduce a substitute as a temporary measure.

3. These notes are being printed at the Government of India Security Printing Press, Nasik Road, but as it will take some time before adequate supplies are available, Government propose to make a start by the issue of notes which were prepared to meet a contingency of another nature in 1935, but which proved unnecessary at the time and which have since been held in stock so as to be available if required. These 1935 notes are printed on paper bearing as a watermark the head of His late Majesty King George V and are 3¼" by 2½" in size. They contain a representation of the rupee coin on both sides and bear the signature of Mr. J. W. Kelly, who was Controller of the Currency in 1935 when they were prepared. The new Nasik notes are exactly similar except that they do not have the same watermark. They are printed on the paper used for Post Office Cash Certificates.

4. Owing to the large number required, the rapidity with which they had to be prepared and the difficulty of obtaining suitable paper in adequate quantity, it has been found necessary to make the rupee notes to be issued initially smaller in size than the rupee notes issued during the last war so as to obtain the maximum number of prints on each sheet, and it is the intention of Government to replace the smaller notes with notes of larger size as soon as possible. The public can co-operate in this if they will limit their use of coin and notes to reasonable monetary purposes and discourage the senseless habit of hoarding. The new notes which will be issued some time later will be 4" by 2½", but in other respects similar in design. They will bear the signature of Mr. C. E. Jones, Secretary to the Government of India in the Finance Department.

W. SCOTT BROWN,
Secretary to Government.

AUDIT REPORT

On the Accounts of the Andhra University, Waltair, for the year 1938-39.

Copy of letter L. F. No. 4966, dated the 8th October 1939, from the Examiner, Local Fund Accounts, Madras, to the Vice-Chancellor, Andhra University, Waltair.

I have honour to forward herewith the Audit Report on the accounts of the Andhra University for the year 1938-39 together with the statements of accounts as required by section 21 (1) of the Andhra University Act of 1926.

Name of Auditor.—Mr. A. B. Chetties, District Inspector of Local Fund Accounts, Vizagapatam.

Time taken for Audit.—From the 1st June to the 10th July and the 12th and the 13th September 1939.

2. The transactions under each of the ten separate accounts maintained by the University are shown in the statements appended. In accordance with the resolution of the Syndicate No. 792, dated the 5th February 1938, the balance of Rs. 2,254-15-4 held in fixed deposit to the Extension Fund Account was realized during year and the amount realized together with the cash balance of Rs. 538-12-1 in that account was transferred to the Foundation Fund Account and the former account was closed. The opening balances in the several cash books are in agreement with the closing balances of the previous year. The closing balances in the several cash books agree with the balances in the annual statements and are in agreement with the balances in the Bank and Treasury pass books after allowing for outstanding cheques and revenue not credited in the Treasury accounts within the year.

3 The more important irregularities are detailed below. Irregularities of a minor nature are detailed in the objection statement which should be treated as part of the report.

4. *Delays in remittances.*—Under section 17 of Chapter XIX of the Andhra University Code, Volume I, all cash receipts should be remitted into the Bank not later than the first working day following on which the Bank is open. But the receipts from the sale of bus ticketing were not remitted in the Bank. They were kept on hand unremitted for periods extending to a fortnight as may be seen from the details furnished below :—

Ticket number.	Amount. Rs. A. P.	Date of collection.	Date of remittance.
Green. 196-198 ..	14 0 3	31st October 1938.	15th November 1938.
199-207 .	37 8 6	1st November 1938.	Do.
208-211 ..	17 8 0	2nd November 1938.	Do.
212-213 .	9 2 6	3rd November 1938.	Do.
214-216 ..	12 0 6	4th November 1938.	Do.
217-218 ..	6 3 0	7th November 1938.	Do.
219-221 ..	11 0 0	8th November 1938.	Do.
222 .	4 6 0	9th November 1938.	Do.
Total ..	113 0 0		
Yellow 248-248 ..	38 8 6	6th December 1938.	11th December 1938.
253-268 ..	32 0 6	7th December 1938.	Do.
269-272 ..	18 8 0	12th December 1938.	Do.
273 ..	8 3 3	13th December 1938	Do.
273 ..	1 12 0	14th December 1938.	Do.
Total ..	99 4 6		

(5) Sub-section (5) of section 16 of Chapter XIX of the Andhra University Code lays down that receipts of every kind except those received through the Bank or Treasury shall be entered in the cash collection book. But the cash receipts realized through the sale of bus tickets were not entered in the Daily Cash Collection Book as other receipts.

5 *Shortage in Tools and Plant Account.*—(a) During the stock verification of Tools and Plant and furniture in February 1939 articles of furniture valued at Rs. 83 were found missing. The cost of the missing articles was recommended to the Syndicate to be written off. It did not appear that any investigation into the matter was made in the case of these losses as required by section 40 of Chapter XIX of the Andhra University Code, Volume I, with a view to recover their cost from the persons responsible.

(b) Innumerable errors in the classification of the articles were noticed in the registers during the verification. The errors have not been rectified so far.

6. *Materials not accounted for.*—In respect of the works noted below earthwork excavation and blasting were carried out and paid for at the rates noted against them. The bricks and metal thus removed were not, however, accounted for through a metal account or otherwise.

		Quantity removed.
(1) Constructing 7 R.C. culds	Blasting paid for at Rs. 40 per 100 c.ft.	4,503 c.ft. of bricks and metal.
(2) Levelling the ground at the southern corner of the Science Hall &c.	Earth work of 8,556 c.ft. not paid for at Re. 0-8 per unit and 11,967 c.ft. paid for at Re. 0-12 per unit.	Not furnished.

7. *Payments to foreign firms—Receipts accruing.*—In respect of the payments made through the Imperial Bank of India to foreign firms and individual payees receipts were not forthcoming in several cases. As proper acknowledgments from actual payees are necessary for allotting the payments in audit, it was suggested that the Bank should execute an indemnity bond with the University to cover all payments made by it outside India. No bond has been executed so far.

8. The gross receipts and charges for the year were Rs. 6,45,375-1-1 and Rs. 6,13,533-6-11, respectively.

9. Forty items of objections involving a sum of Rs. 6,932-13-12 were pending settlement at the close of audit.

Candidates who are undoubtedly suffering from infectious disease of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each answer book. Failure to write their register numbers may involve the rejection of answer papers. They should also fill in the subject and the year on the outer cover of the answer book.

4. Candidates are not allowed to exceed the time assigned to a paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out, and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

Any cocktails detected in the violation of these rules will be summarily sent out of the room forthwith, and his conduct will be reported to the Registrar. He shall forthwith upon intimation being given to him by the Superintending Engineer of acceptance of his tender make a further security deposit of rupees one thousand two hundred and fifty only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 65 of the standard preliminary specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of this contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Superintending Engineer's office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has first been signed by the contractor and then by the proper Officer authorised to enter into contracts on behalf of Government.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Superintending Engineer, Trichinopoly Circle. A copy of the set of contract documents can also be had on payment of Rs. 15 (rupees fifteen only) for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause "materials and workmanship" in the "Preliminary Specification". Materials conforming to the British Standard Specifications shall be used as far as and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work in every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender, notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Superintending Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, taxes, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery
(6) Accidents.
(7) Delays
(8) Particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Trichinopoly division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in units of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule A. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications or quantities accompanying same will be recognized, and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No postage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning the work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as well be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of time programme will be the date on which the site (or premises) is handed over to the contractor.

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the division will furnish such but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Superintending Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. Preference in the selection from among the tenderers will be given, other things being equal, to those who are themselves professionally qualified or who undertake to employ qualified men at their cost to look after the work. The tenderers should therefore state in clear terms whether they are professionally qualified or whether they undertake to employ technical staff and if so to give their professional qualifications or of the staff to be employed. In case the selected tenderer is one who has undertaken to employ technical staff under him, he should see that one of the staff is always at site of the work during working hours, personally checking all items of work and paying extra attention to such works as may demand special attention, e.g., reinforced concrete work, etc.
